SUMMARY

Computer Science and Engineering student with hands-on experience in web development, AI-powered applications, and problem-solving. Experienced in collaborative project development, hackathon participation, and building technology-driven solutions to real-world challenges.

EDUCATION

NITTE Meenakshi Institute Of Technology, Bengaluru — Jun 2025 – Jun 2029
Bachelor of Technology , Computer Science and Engineering — Bengaluru, India

PROJECTS

Smart Queue Management System - **Flutter, Dart, Firebase Authentication, Cloud Firestore, Riverpod, Gemini AI**

- Designed and implemented a smart queue management system to streamline customer handling and minimize wait times.
- Integrated real-time tracking and automated queue allocation to improve service efficiency and user experience.

MediKiosk - **Python, FastAPI, Next.js, React, TypeScript, Firebase**

- Developed an AI-powered patient intake system to streamline OPD case-taking and clinical workflows using Gemma for adaptive questioning.
- Integrated multilingual voice input using the Bhashini API, document OCR, and AI-assisted symptom assessment.

IP-Sakti - **Next.js, React, TypeScript, Python, FastAPI, Firebase, RAG**

- Developed an AI-powered platform for intellectual property research and traditional knowledge protection using Groq-hosted LLMs.
- Leveraged LLMs and knowledge retrieval to assist with prior-art analysis, patent research, and identification of relevant traditional knowledge.

WORK EXPERIENCE

Web Development Intern - INAMIGOS FOUNDATION — Jun 2026 – July 2026 — Remote

- Developed and improved an NGO website as part of a Web Development Internship at the InAmigos Foundation.
- Completed assigned development tasks and **received an Appreciation Certificate** for outstanding performance.

TECHNICAL SKILLS

- Languages: Python, C, HTML, CSS, JavaScript, TypeScript
- Developer Tools: Git, GitHub, VS Code, Google Colab, Google Antigravity, Gemini, Groq
- Technologies/Frameworks: Flutter, React, Next.js, FastAPI, Firebase, Tailwind CSS

LEADERSHIP & ACHIEVEMENTS

- Nexora Club - As **Tech Co-Lead** I developed a Participant Management Website to streamline registration and coordination for a hackathon involving 50 teams.
- **Qualified for the Smart India Hackathon (Internal round)** among 200+ competing teams.
- BigSOC Club - Contributed as a key member of the technical team at BigSOC Club, designing and hosting a hackathon website that drove engagement for over 20 teams and fostered technical creativity.
